

TRANSMITTAL FORM

Title: Rename the Master of Arts in "Hearing and Speech Sciences" to "Speech-Language Pathology" Presenter: Andrew Harris, Chair, Senate Programs, Curricula, and Courses Committee Date of SEC Review: August 30, 2016 Date of Senate Review: September 7, 2016 Voting (highlight one): 1. On resolutions or recommendations one by one, or 2. In a single vote 3. To endorse entire report Statement of Issue: The Department of Hearing and Speech Sciences within the College of Behavioral and Social Sciences proposes to rename its Master of Arts program in "Hearing and Speech Sciences" to "Speech-Language Pathology." Several years ago, the Master of Arts program served students interested in both Audiology and Speech-Language Pathology. The professional credential required for Audiology subsequently became a four-year doctoral degree. The department now offers a doctoral program in Clinical Audiology to meet this need for students interested in a career in Audiology. The Master of Arts program now only serves students interested in Speech-Language Pathology. The current title of the program, "Hearing and Speech Sciences," no longer accurately reflects the content of the professional training and could be misleading for professional licensure application and to prospective employers. Consequently, the department proposes to retitle the program to "Speech-Language Pathology." This proposal was approved by the Graduate School Programs, Curricula, and Courses committee on April 22, 2016, and was approved by the Senate Programs, Curricula, and Courses committee at its meeting on May 6, 2016	Senate Document #:	16-17-05

Recommendation:	The Senate Committee on Programs, Curricula, and Courses	
	recommends that the Senate approve this program name change.	
Committee Work:	The committee first considered this proposal at its meeting on February 5, 2016, when the department requested a curriculum change for the program. Yasmeen Shah, Director of the Master of Arts program, and Wayne McIntosh, Associate Dean for the College of Behavioral and Social Sciences, presented the proposal to modify the curriculum. During the discussion, the committee learned of the outdated program title and expressed support for the name change. The department submitted a formal proposal and the committee formally approved the proposal at its May 6, 2016 meeting.	
Alternatives:	The Senate could decline to approve this program name change.	
Risks:	If the Senate declines to approve this program name change, the program title will not adequately reflect the program content.	
Financial Implications:	There are no significant financial implications with this proposal.	
Further Approvals Required:	If the Senate approves this proposal, it would still require further approval by the President, the Chancellor, and the Maryland Higher Education Commission.

Summary of Proposed Action (use additional sheet if necessa	ry):
The Master of Arts program prepares students to professionally currently titled Master of Arts in Hearing and Speech Sciences (

currently titled Master of Arts in Hearing and Speech Sciences (Area of concentration: Speech). This degree name does not accurately reflect the content of the professional training and could be misleading for professional licensure application and to prospective employers. So we request changing the degree name to Master of Arts in Speech-Language Pathology.
