

SENATE LEGISLATION APPROVAL

Date:	February 15, 2013
To:	Wallace D. Loh
From:	Martha Nell Smith Chair, University Senate 
Subject:	PCC Proposal to Establish a Post-Baccalaureate Certificate in Adolescent Cognitive Development and Motivation to Read
Senate Document #:	12-13-32

I am pleased to forward for your consideration the attached legislation entitled, "PCC Proposal to Establish a Post-Baccalaureate Certificate in Adolescent Cognitive Development and Motivation to Read." Elizabeth Beise, member of the Programs, Curricula, and Courses (PCC) Committee, presented the proposal. The University Senate approved the proposal at its February 14, 2013 meeting.

We request that you inform the Senate Office of your decision as well as any subsequent action related to your conclusion.

Enclosure: PCC Proposal to Establish a Post-Baccalaureate Certificate in Adolescent Cognitive Development and Motivation to Read
Senate Document # 12-13-32

MNS/rm

- Cc: Mary Ann Rankin, Senior Vice President & Provost
Reka Montfort, Executive Secretary and Director, University Senate
Juan Uriagereka, Associate Provost for Faculty Affairs

University Senate TRANSMITTAL FORM

Senate Document #:	12-13-32
PCC ID #:	12001
Title:	Proposal to Establish a Post-Baccalaureate Certificate in Adolescent Cognitive Development and Motivation to Read (ACDMR)
Presenter:	William Idsardi, Chair, Senate Programs, Curricula, and Courses Committee
Date of SEC Review:	February 1, 2013
Date of Senate Review:	February 14, 2013
Voting (highlight one):	<ol style="list-style-type: none"> 1. On resolutions or recommendations one by one, or 2. In a single vote 3. To endorse entire report
Statement of Issue:	<p>The College of Education's Human Development and Quantitative Methodology (HDQM) department requests to establish a Post-Baccalaureate Certificate in Adolescent Cognitive Development and Motivation to Read.</p> <p>This new Post-Baccalaureate Certificate program has been developed for the Montgomery County Public School (MCPS) system, which seeks training in this specific area for their teachers. According to MCPS, many teachers have a need for a specialized certificate program rather than a 30-credit Master's Degree program. This certificate program is one of two certificate programs that the department is developing for MCPS (see also PCC ID# 12000).</p> <p>The course requirements for this certificate program are as follows: EDHD600: Introduction to Human Development and Child Study (3 credits); EDHD617: Achievement Motivation in Adolescence (3 credits); EDHD624: Cognitive and Motivational Bases of Reading: Reading in Content Areas I and II (6 credits); and EDHD692: Cognitive Basis of Instruction (3 credits). The courses are designed to help teachers understand the motivational and cognitive aspects that affect adolescent reading comprehension. The department anticipates that each cohort size will be approximately ten students.</p>

	The Academic Planning Advisory Committee approved the proposal on November 27, 2012. The Graduate PCC committee approved the proposal on November 28, 2012. The Senate PCC committee approved the proposal at its meeting on December 7, 2012.
Relevant Policy # & URL:	Not Applicable
Recommendation:	The Senate Committee on Programs, Curricula, and Courses recommends that the Senate approve this new Post-Baccalaureate Certificate program.
Committee Work:	The Committee considered the proposal at its meeting on December 7, 2012. Maggie McLaughlin, Associate Dean of Education, and Ann Battle of the Department of Human Development and Quantitative Methodology presented the proposal. After discussion, the Committee voted unanimously to recommend the proposal.
Alternatives:	The Senate could decline to approve the new Post-Baccalaureate Certificate program.
Risks:	If the Senate does not approve the new Post-Baccalaureate Certificate program, the University will lose an opportunity to provide a valuable continuing education opportunity to teachers in Montgomery County, Maryland.
Financial Implications:	There are no significant financial implications with this proposal.
Further Approvals Required: <i>(*Important for PCC Items)</i>	If the Senate approves this proposal, it would still require further approval by the President, the Chancellor, and the Maryland Higher Education Commission.

Summary of Proposed Action: Creating a new certificate as a subset of an existing degree program

The Department of Human Development and Quantitative Methodology is proposing a new Graduate Certificate Program, comprised of three 3 - credit courses and one 6 - credit course, all of which are already included in the department's existing 30 – credit Master of Education Program in partnership with Montgomery County Public Schools (MCPS). The certificate program is being designed in response to discussions with Staff Development administrators in MCPS, who have advised us that many teachers have need for a 15 - credit certificate in specialized content areas from an institution of higher education. These teachers wish to complete their master's equivalency requirements, but do not seek an academic degree program. A letter of support from Dr. Russ Fazio, Instructional Specialist, MCPS Staff Development, is included with this proposal. Our intention is to continue our Masters program offering, while simultaneously admitting certificate students who will take four of the nine courses required for the M.Ed. Students will take these courses over the same two year period as the masters students.

Title of Certificate

Graduate Certificate in Adolescent Cognitive Development and Motivation to Read (ACDMR)

Courses

EDHD 600: Introduction to Human Development and Child Study (3 credits)

EDHD 617: Achievement Motivation in Adolescence (3 credits)

EDHD 624: Cognitive and Motivational Bases of Reading: Reading in Content Areas I and II (6 credits)

EDHD 692: Cognitive Bases of Instruction (3 credits)

Rationale

Over the course of development, there are important changes in adolescents' ways of thinking, in their motivation for school in general, and for reading in particular. Courses in this certificate program provide current research-based information about these changes. A unique feature of this series of courses is the focus on both cognitive and motivational factors affecting reading comprehension. Reading comprehension often has been studied primarily from a cognitive developmental perspective, but there is increasing interest in how students' motivation affects their comprehension and involvement in reading. If students are not motivated to read then even those with strong cognitive skills will not engage in reading. The course sequence begins with a

general overview of adolescent development (EDHD 600) to provide important background information about the adolescent time period. Other courses focus on the particular topics of achievement motivation (EDHD 617) and cognition (EDHD 692), with a special focus on how each is impacted by different kinds of instruction. A unique course in the program (EDHD 624) integrates cognitive and motivational bases of reading within teachers' specific content areas. This course helps teachers apply the information about cognitive and motivational development directly to their specific content area (e.g., science). This course also satisfies State of Maryland requirements for initial and re-certification in reading at the secondary level. This proposed certificate program supports teachers' professional development not only through the targeted curriculum, but also by giving teachers from different schools and content areas many opportunities to interact with one another in each of the courses, and to discuss the course material in the context of their own instructional activities.

Supplemental Information

The information provided in this section is in response to the following questions, which were issued to the College upon Campus review of the first version of this proposal. The questions are from Dr. Beise, Associate Provost, Academic Planning and Programs, in an email dated 5/23/12:

“It would be helpful to have the following in a proposal...

The full curriculum of the M.Ed. and a short description of the program, who typically enrolls, etc.

A statement of the admissions requirements for the M.Ed., along with a clear statement that they will be the same for the certificate.

How is the M.Ed. program funded and supported?

Is it state-supported or "outreach"?

Where are the classes taught?

What are the current enrollments?

What is the typical schedule of classes?

Who are the faculty who teach in the program?

For the two certificates:

What are the expected enrollments? How will you accommodate the additional students?

What are the learning outcome goals for the certificate and how are they measured?"

Campus approval for the Human Development Master of Education Program in partnership with Montgomery County Public Schools was granted in June, 2000 (see approval letter below). The curriculum for the program is as follows:

Semester 1 (Fall, Year 1):

EDHD 600: Introduction to Human Development (3 credits)

EDHD 692: Cognitive Bases of Instruction (3 credits)

Semester 2 (Spring, Year 1):

EDHD 624: Cognitive and Motivational Bases of Reading: Reading in Content Areas I and II (6 credits)

Semester 3 (Summer, Year 1):

EDHD 602: Social Bases of Behavior (3 credits)

EDMS 645: Quantitative Research Methods I (3 credits)

Semester 4 (Fall, Year 2):

EDHD 662: Research Methods in Education Settings (3 credits)

EDHD 617: Achievement Motivation in Adolescence (3 credits)

Semester 5 (Spring, Year 2):

EDHD 635: Adolescents at Risk (3 credits)

EDHD 674: Self Processes in Adolescence: Implications for Academic Achievement and School Adjustment (3 credits)

This is a two year, 30-credit M.Ed. program, from which 139 MCPS secondary education teachers have graduated since 2002, typically in cohorts that range from 10-15 students per year. Students take courses related to adolescent cognitive, social, and emotional development; achievement motivation, reading at the secondary level, cognitive bases of instruction in secondary classrooms; adolescents at-risk and research methods. Admission to University of Maryland graduate programs is competitive and space is limited. At a minimum, applicants must meet the following admission criteria: a 3.0 undergraduate grade point average, three letters of recommendation from supervisory personnel in MCPS or former professors, and an applicant goal statement consistent with the program objectives and content. GRE's are not required for this program. Academic programs review admissions applications and credentials and make recommendations to the Graduate Dean, who makes the final admission decision and notifies applicants. The admissions requirements for the proposed certificate programs will be the same as those for the M.Ed. The M.Ed. program is an Outreach offering from the Department of Human Development and Quantitative Methodology, and as such, is self-supporting.

Courses in the M.Ed. program are taught at the Universities at Shady Grove, with an occasional class scheduled in an MCPS secondary school. Currently, the program enrollments are as follows: 10 students graduated in May, 2012 (Cohort 11); 9 students are entering year 2 (Cohort 12); and 9 students are accepted for a fall 2012 start date (Cohort 13 – applications still under review). Courses are taught primarily by full-time faculty in the department, specializing in developmental science and educational psychology. With Chair approval, selected courses may be taught by post-doctoral graduates who have been trained by our faculty, or highly qualified part-time adjunct instructors. Instructors in the program must be approved as members of the Graduate Faculty at the University. In accordance with new MHEC guidelines for academic programs (April 2012), it will be ensured that at least one-third, or three of the nine courses offered in the M.Ed. program will be taught by full-time faculty; historically, the percentage of full-time faculty teaching in the program has often been higher.

The proposed certificate program will be embedded in the existing M.Ed. program, and according to the class schedule above, can be completed in three semesters: Fall (EDHD 600 & 692) & Spring (EDHD 624) Year 1, and Fall (EDHD 617) Year 2. Priority consideration for admission will be given to applicants for the degree granting program. Certificate students will be admitted on a space available basis such that no cohort exceeds a total enrollment of 25 students across both the M.Ed. and certificate students. Typical cohorts in the existing M.Ed. program range from 10 – 15 students. If this trend continues, the certificate cohorts are expected to be comprised of approximately 10 students. Once again, in accordance with new MHEC guidelines, it will be ensured that at least one-third (two of the four courses offered) in the certificate program will be taught by full-time faculty.

Certificate Learning Outcomes and Assessment Methods are as follows:

Learning Outcomes: Students will demonstrate

1. A knowledge of theory and research in foundational areas related to learning and teaching;
2. An ability to explicate instructional implications based on understanding of contemporary theory and research in areas of cognitive development, knowledge acquisition, teaching strategies, motivation to achieve, and assessment;

3. Competencies related to the understanding and translation of relevant readings on a given topic into specific, applied principles of secondary education practice pertaining to cognitive development, knowledge acquisition, teaching strategies, motivation to achieve, and assessment in the content areas.

Assessment Measures:

Assessments include journals, short reaction papers, end of semester term papers, student presentations and action research projects, and in-class demonstrations of practical application of both theory and research in support of students' cognitive development and motivation to achieve.

Final Approval

Memorandum

TO: James Cibulka
Associate Dean, College of Education

FROM: Victor Korenman *VK*
Assistant Provost

SUBJECT: Off Campus Master of Education Program in Human Development

This is in response to your memorandum of June 1, 2000, in which you request approval from the Office of Academic Affairs to offer the M.Ed. in Human Development at an offsite location.

Based on your memorandum and a subsequent conversation my understanding is that this will be a closed site program (available only to a specific cohort of secondary school teachers) offered at the request of the Montgomery County Public Schools, and to be given during evenings and on weekends at the Julius West Middle School in Rockville. The program will be substantially identical to the corresponding program offered on campus, and will be delivered mostly by regular University faculty. These faculty will also serve as advisors to the enrolled students and will arrange regular times at which they will be available for this purpose. There will be a staff coordinator who will help ensure the smooth functioning of the program. As the students will be regularly admitted to and enrolled in the Graduate School of the University of Maryland, they will have full access to library materials at College Park and online. In addition, special efforts will be made to ensure easy access to the most important materials needed for the program.

On behalf of the Office of Academic Affairs I am pleased to approve the offering of the M.Ed in Human Development at the Julius West Middle School.

CC: Gregory L. Geoffroy, Senior Vice President for Academic Affairs and Provost

Dr. Ann Battle, Assistant Director
Institute for Child Study
University of Maryland at College Park

Ann,

I enjoyed our conversation about the potential for bringing a Human Development 15 credit hour certificate program to the Montgomery County Public Schools (MCPS). Certificate programs have been quite popular in assisting MCPS teachers to reach a new pay level. Those that already have master's degrees find it helpful to apply for a certificate program to reach the Master's plus 30 MCPS pay scale, rather than having to go through another degree program. Also, teachers who want to complete their master's equivalency find certificate programs useful in getting there. Another reason is that those veteran teachers that want to keep up with the latest in their field of education, find these programs a viable less expensive way to continue their professional growth.

I look forward to discussing with you in the near the potential for bringing just such a certificate program in human development to MCPS.

Best Regards,
Russ Fazio, Ph.D

Instructional Specialist
