University Senate PROPOSAL FORM

Name:	Mikayla Hellwich
Date:	October 28th, 2013
Title of Proposal:	Proposal to Streamline the University's Marijuana Policy with State Policy
Phone Number:	240-461-3066
Email Address:	Luzerntomorrow@gmail.com
Campus Address:	5108 Mangum Rd, College Park MD, 20740
Unit/Department/College:	College of Agriculture and Natural Resources
Constituency (faculty, staff, undergraduate, graduate):	
Description of issue/concern/policy in question:	<p>Currently, the University punishes those caught with marijuana by removing them from campus and imposing long-term drug testing. Although marijuana remains illegal both federally and at the state level, Maryland has an affirmative defense law. This law pertains to patients that receive a doctor's recommendation and states that cannabis consumption is the desired method of alleviating their particular ailment(s). This doctor's note can be used in a court of law to prevent criminal charges upon a person who may be detained on cannabis-related charges.</p> <p>See: Attachment (Darrell Putnam Compassionate Use Act)</p>
Description of action/changes you would like to see implemented and why:	<p>This proposal aims to streamline campus policy with laws already in place. This would mean that if a student could present a verifiable doctor's note upon questioning by an RA, a police officer on campus, or any other official, that this student could not be punished by University of Maryland sanctions. They would not be removed from the University, they would be allowed to keep campus housing, and they would not be subjected to drug testing. This proposal aims to protect the safety, health, dignity, education, and criminal records of patients that have already been deemed legally protected by the state.</p>

<p>Suggestions for how your proposal could be put into practice:</p>	<ul style="list-style-type: none"> - Pertains only to students with a doctor's note approving cannabis use for their ailment(s) - Pertains only to students who are enrolled in the University - Pertains only to students who live on campus - Could be implemented immediately with zero cost - Qualifying students would not be permitted to share their medicine with others who do not have a doctor's note
<p>Additional Information:</p>	<p>There are currently hundreds of known medical uses for cannabis, and there are programs all over the country and the world now that allow patients to have access to such a powerful medicine. This proposal is not to condone substance use or abuse- but simply to allow those with a medical necessity to continue to receive their education. This proposal does not ask that the University do anything that is beyond state policy- just to protect those students who wouldn't otherwise be harmed.</p> <p>This proposal would ultimately lead to no harmful changes. This proposal could result in an increase of students applying to the University because they feel safe in knowing that they will not be persecuted for their medically and legally-valid behavior. It could also lead to student patients who feel safe knowing their education is protected, and an entire student body that has pride that their University honors those who are sick and disabled.</p>

Please send your completed form and any supporting documents to senate-admin@umd.edu or University of Maryland Senate Office, 1100 Marie Mount Hall, College Park, MD 20742-7541. Thank you!
