ISSUE

In spring 2017, the University IT Council created bylaws to organize its operations, as required by the Bylaws of the University Senate; it submitted them to the Senate Executive Committee (SEC) for review and inclusion as an appendix of the Senate Bylaws. The SEC subsequently received a proposal asking that a non-voting ex-officio representative of the Provost’s Office be added to the membership of the IT Council. In May 2017, the SEC voted to charge the Senate Elections, Representation, & Governance (ERG) Committee with reviewing the IT Council Bylaws, considering whether the membership of the IT Council should be revised, and determining whether any changes to the Senate Bylaws were necessary. The IT Council then decided that an additional non-voting ex-officio representative from the Information Technology Advisory Committee would provide valuable perspective. The IT Council also requested that its User Experience Working Group be dissolved, and that its Information Technology Security Advisory Committee be converted into an official Working Group. In September, the SEC requested that the ERG Committee consider these additional changes in an addendum to its original charge.

RECOMMENDATIONS

The ERG Committee recommends that the Bylaws of the University Senate be amended to adjust the membership and structure of the IT Council as indicated below and in the revised Bylaws immediately following this report (new text in blue/bold, removed text in red and struck through).

COMMITTEE WORK

The ERG Committee reviewed past Senate legislation concerning the IT Council and the guidelines for University Councils set forth in Article 7 of the Senate Bylaws. At its October meeting, it consulted with the interim Vice President for Information Technology and Chief Information Officer, who explained the rationale behind the additional ex-officio members identified in the IT Council's request. The committee agreed that a representative of the Provost and a representative from the Information Technology Advisory Committee would enhance the work of the council. It also carefully considered the proposed changes to the IT Council structure. Much of the council's activities involve its Working Groups, each of which is dedicated to an aspect of the Division of Information Technology's mission. The ERG Committee agreed the revised Working Group structure would strengthen the council, though members discussed whether changes to the number and nature of IT Council Working Groups should require approval by the Senate and the President. The committee decided to recommend striking the list of Working Groups from the Senate Bylaws and leaving their delineation to the IT Council Bylaws. This would provide the IT Council the flexibility to adjust the number and nature of its Working Groups as needs change while preserving the Senate's oversight role, given changes to University Council bylaws are reviewed and approved by the ERG Committee, rather than the full Senate. The committee also recommended additional changes to the Senate Bylaws to reflect the new membership of the IT Council and clarify its responsibilities. The ERG Committee voted to approve revisions to the Senate Bylaws in an email vote concluding on October 10, 2017.

ALTERNATIVES

The Senate could choose not to approve the revised IT Council membership and structure. However, it would lose an opportunity to streamline and enhance the IT Council's activities.

RISKS

There are no associated risks to the University.

BACKGROUND

The University's Plan of Organization for Shared Governance and the Bylaws of the University Senate establish and describe the duties of University Councils, which are jointly sponsored by the University Senate and the Office of the President or Provost. University Councils serve in an advisory role to specific members of the Administration (i.e., vice president or dean) and are established to exercise an integrated advisory role over specified campus units and their associated activities. University Councils are responsible for creating their own bylaws to structure their operations and establish specific areas of responsibility.

The University IT Council advises on various issues concerning the Division of Information Technology, reporting to the Vice President for Information Technology and Chief Information Officer (VP-CIO) and the University Senate. In spring 2017, the IT Council completed work on its bylaws and submitted them to the Senate Executive Committee (SEC). The SEC subsequently received a proposal asking that a non-voting ex-officio representative of the Provost's Office be added to the membership of the IT Council. In May, the SEC voted to charge the Senate Elections, Representation, & Governance (ERG) Committee with reviewing the IT Council Bylaws and incorporating them as an appendix of the Senate Bylaws, considering whether any additional changes to the Senate Bylaws were necessary, and evaluating the proposal to add a Provost's representative to the committee (Appendix 5). The IT Council then decided that an additional non-voting ex-officio representative from the Information Technology Advisory Committee, a student group tasked with making recommendations to the VP-CIO related to student technology access and considering the amount and use of the Student Technology Fee, would provide valuable perspective. The IT Council also requested that its User Experience Working Group be dissolved, and that the Information Technology Security Advisory Committee (ITSAC) be converted into an official Working Group. In September, the SEC requested that the ERG Committee consider these additional changes in an addendum to its original charge (Appendix 6).

CURRENT PRACTICE

In fall 2004, the VP-CIO created an "IT Council," intended as a forum for deans and the University vice presidents to discuss significant IT issues facing the campus. It subsequently became a body that included various constituent representatives in addition to the vice presidents. While its

membership has evolved over the years, the council's primary purpose has been consistent: to serve as an advisory body that assists the Division of Information Technology in its efforts to become a leader in information technology among public universities.

After the creation of an IT Strategic Plan in 2013, the IT Council was incorporated into Article 8 of the University Bylaws (Appendix 1). In order to carry out the governance principles in the IT Strategic Plan, the structure of the IT Council was revised at that time to include four Working Groups. These Working Groups—Learning @ Technology, Enabling Research, Infrastructure, and Enterprise Systems—are each dedicated to a particular aspect of the Division of Information Technology's mission. The IT Council itself provides oversight of the Working Groups, and the chairs of the Working Groups are members of the council. The membership of the IT Council was also revised, as the vice presidents were removed and the chairs of the Working Groups added. In 2015, an additional Working Group devoted to assessing the user experience was created. This User Experience Working Group focuses on accessibility issues and the nature and quality of the user experience for various campus IT consumers.

In 2015, the ERG Committee considered making the ITSAC a Working Group of the council. This committee focuses on protecting the data and privacy of the University and its users, and planning for possible disaster scenarios. The ERG Committee ultimately determined that the body would function more effectively as a committee capable of advising the other Working Groups. The ERG Committee did make the chair of the ITSAC a non-voting ex-officio member of the IT Council (Appendix 2). Later in 2015, a non-voting ex-officio representative from the University Libraries was also added to the council's membership (Appendix 3).

COMMITTEE WORK

The ERG Committee began its work on the charge at its meeting in August 2017. It reviewed previous Senate legislation involving the IT Council and examined the council's membership since its creation in 2004 (Appendix 4). At its meeting in September, the committee spoke with the interim VP-CIO, who provided valuable insights into the activities of the IT Council and its relationship to the Senate and the campus community. The committee also consulted with a representative of the Provost during its review.

The committee learned that the User Experience Working Group created in 2015 spent much of its time looking at issues surrounding web accessibility, and has never really functioned as it was designed to do. The intended mission of the User Experience Working Group has since become an integral part of the focus of the remaining Working Groups, nearly all of which carefully consider user experience. Given this, the VP-CIO indicated there is no longer any need for a separate body. The charge addendum also asks that the ITSAC be converted from an advisory committee to a Working Group, since security concerns are, and will continue to be, significant enough to merit the attention of a dedicated Working Group. In addition to recognizing that the ITSAC has been functioning as a de facto Working Group for several years, the change will allow for more streamlined bylaws by eliminating the need for an additional section devoted to the ITSAC that would largely reiterate material in the section on Working Groups.

The ERG Committee considered adding a non-voting ex-officio representative from the Information Technology Advisory Committee to the membership of the IT Council. This committee considers important issues involving student access to technology across campus, reviews proposals requesting funding through the Student Technology Fee, and considers changes in the amount of the fee itself. Adding a representative from this committee to the IT Council would strengthen the

relationship between the two bodies and better coordinate their efforts. The VP-CIO expressed his strong support for the addition of this representative, as well as a representative from the Provost's Office. Since the Provost has a role as a vice president, the Provost had been a member of the council for most of its history, and had even chaired the council for a time. The Provost brings a campus-wide perspective that will be valuable when the council considers projects that impact the academic and research missions of the University. The committee voted to approve the addition of non-voting ex-officio representatives from the Information Technology Advisory Committee and the Provost. The ERG Committee also agreed that the important role of the ITSAC could better be fulfilled if it were a Working Group.

The committee discussed whether changes to the number and nature of IT Council Working Groups should require approval by the Senate and the President. At present, the Senate Bylaws list and describe the IT Council Working Groups in Article 8.3, meaning the Senate Bylaws must be amended each time the IT Council wants to adjust its Working Group structure. The committee considered at length the merits of this approval process. While Senate oversight of the overall activities of the IT Council is necessary and appropriate, the committee felt that the details of how the council chooses to distribute its workload among what are essentially its own committees was better left to the discretion of the council. Of all the University Councils, the IT Council in particular must be agile enough to respond to the rapid pace of changes in the security environment, in hardware demands, and in enterprise systems. The committee therefore recommended striking the list of Working Groups from the Senate Bylaws and leaving their delineation to the IT Council Bylaws. This would allow the IT Council to have the flexibility to adjust the number and nature of the Working Groups as needs change while preserving the Senate's oversight role, given changes to University Council bylaws are reviewed and approved by the ERG Committee, rather than the full Senate. The committee recommended an additional provision in the IT Council Bylaws clarifying that any amendments to its bylaws must be forwarded to the Senate for review; the IT Council accepted this change.

Article 7.5.a of the Senate Bylaws indicates that University Councils will have a membership of between nine and thirteen regular members. Given Working Group chairs are regular members of the IT Council, the total membership of the council will change if the number of Working Groups is adjusted. To accommodate such fluctuations, the ERG committee recommended that Article 8.3.b of the Senate Bylaws be revised to establish an upper limit of thirteen, rather than a specific membership. It also recommended that Article 8.3.d be revised to limit the total number of Working Groups to seven, thus ensuring the overall council membership does not exceed thirteen. It also recommended that the staff member of the IT Council be open to both exempt and non-exempt employees.

The ERG Committee voted to approve revisions to the Senate Bylaws in an email vote concluding on October 10, 2017.

The ERG Committee recommends that the Bylaws of the University Senate be amended to adjust the membership and structure of the IT Council as indicated below and in the revised Bylaws immediately following this report (new text in blue/bold, removed text in red and struck through).

BYLAWS OF THE UNIVERSITY SENATE

The University of Maryland, College Park

ARTICLE 1 AUTHORIZATION

- 1.1 These *Bylaws of the University Senate* (hereafter referred to as the *Bylaws*) are adopted according to Article 7 of the *University of Maryland Plan of Organization for Shared Governance* (hereafter referred to as the *Plan*), and are subject to amendment as provided for in the *Plan*.

ARTICLE 2 MEMBERSHIP

- 2.1 The members of the Senate are as designated in Article 3 of the *Plan* and further specified in 2.1 and 2.2 below. All elected members are subject to the conditions stated in the *Plan*, including its provisions for expulsion, recall, and impeachment (Articles 4.10, 4.11, and 5.8 of the *Plan* and Article 2.3, 2.4, and 2.5 below).

2.1.a Staff Senators

For the purpose of Senate representation, the Staff Constituency is divided into the following categories. Each category shall elect one Senator from among its ranks for each 200 staff members or major fraction thereof.

1. Exempt Staff with appointment in Colleges, Schools, and Academic Affairs
2. Exempt Staff with appointment in Divisions
3. Non-Exempt Staff with appointment in Colleges, Schools, and Academic Affairs
4. Non-Exempt Staff with appointment in Divisions

- 2.1.b Staff member job categories will not include the category designated for the President, vice presidents, provosts, and deans if they hold faculty rank.

- 2.1.c Any individual within the faculty member voting constituency cannot be included in the staff member voting constituency or nominated for election as a staff Senator. Staff candidates for the Senate must have been employed at the University of Maryland College Park for 12 months prior to standing as candidates for the Senate. Staff members may not stand for Senate elections while in the probationary period of employment.

- 2.1.d An ex officio member denoted in the *Plan* (Article 3.6.a.) who is not precluded from staff member categories as noted in Articles 2.1.b and 2.1.c may be elected as a voting member of the Senate by an appropriate constituency. Such ex officio members should also have been employed by the University of Maryland College Park for 12 months prior to standing as candidates for the Senate.

- 2.1.e As noted in the *Plan* (Article 3.3.c), the term of each staff Senator shall be three (3) years. Terms of staff members will be staggered in such a way that for each term, one-third of the total members from a job category are serving the first year of their term. Not every member of a specific staff job category shall be elected in the same year. However, if the University or these *Bylaws* redefine the staff job categories outside of a normal reapportionment, the staff Senate seats will be vacated. A subsequent election will be held to populate all staff Senate seats within the new categories with staggered terms as follows:

- (1) One-third of the members in a job category who received the lowest number of votes will serve a one-year term,
- (2) One-third of the members in a job category who received the second lowest number of votes will serve two-year terms,
- (3) One-third of the members in a job category who received the highest number of votes will serve three year-terms.

A person serving less than a three-year term is defined as not to have served a full term and is eligible for re-election to a full term the following year.

2.2 Single Member Constituencies

The Senators defined in (a)-(g) below shall be voting members of the Senate. All elections held pursuant to this section shall be organized by the Office of the University Senate.

- (a) Part-Time Research, Part-Time Teaching, Adjunct, and both Full-Time and Part-Time Visiting Faculty who are not members of the Faculty Constituency as defined in Section 3.2 of the Plan shall together elect one (1) Senator, for a term of one (1) year, renewable for up to three (3) years. When the Senate votes by constituencies, that Senator shall have the same voting rights as a faculty Senator.
- (b) Emeritus Faculty who are not members of the Faculty Constituency as defined in Section 3.2 of the *Plan* shall elect one (1) Senator from among their ranks for a term of one (1) year, renewable for up to three (3) years. When the Senate votes by constituencies, that Senator shall have the same voting rights as a Faculty Senator.
- (c) Head Coaches who are not members of the Faculty Constituency as defined in Section 3.2 of the University Plan of Organization together shall elect one Senator from among their ranks to serve for a term of one (1) year, renewable for up to three (3) years. When the Senate votes by constituencies, that Senator shall have the same voting rights as a faculty Senator.
- (d) Post-Doctoral Scholars, Post-Doctoral Associates (formerly Research Associates), Junior Lecturers, and Faculty Assistants (formerly Faculty Research Assistants) who are not members of any Senate constituency as defined in Article 3 of the *Plan* together shall elect one (1) Senator, for a term of one (1) year, renewable for up to three (3) years. When the Senate votes by constituencies, that Senator shall have the same voting rights as a Faculty Senator.
- (e) The Contingent II staff shall elect one (1) Senator from among their ranks for a term of one (1) year, renewable for up to three (3) years. When the Senate votes by constituencies, that Senator shall have the same voting rights as all other staff Senators. The Contingent II staff Senator shall have been employed by the University for twelve months prior to their election.
- (f) The part-time undergraduate students shall elect one (1) Senator from among their ranks for a term of one (1) year, renewable for up to three (3) years. When the Senate votes by constituencies, that Senator shall have the same voting rights as all other student Senators.
- (g) The part-time graduate students shall elect one (1) Senator from among their ranks for a term of one (1) year, renewable for up to three (3) years. When the Senate votes by constituencies, that Senator shall have the same voting rights as all other student Senators.

2.3 Elected Senators shall not be absent from two (2) consecutive regularly scheduled meetings of the Senate without notifying the Office of the University Senate that they will require an excused absence (Article 4.10.a of the *Plan*). Also in accordance with Article 4.10 of the *Plan*, until the member attends a meeting of the Senate, or the Senator is expelled, that Senator shall be counted in the total membership when a quorum is defined for a meeting.

2.4 If an elected Senator is no longer a member of the constituency by which he or she was elected, the seat shall be vacated and the Senator shall be replaced according to the following guidelines:

- 2.4.a If there was a runner-up in the election in which the Senator was elected, the runner-up shall replace that Senator immediately, provided he or she is still eligible.
- 2.4.b If there was no runner-up in the election in which the Senator was elected and the vacancy occurs in the spring semester, that Senator shall serve for the remainder of the Senate year and shall be replaced in the next election cycle for the remainder of the term.
- 2.4.c If there was no runner-up in the election in which the Senator was elected and the vacancy occurs prior to the spring semester, or if the Senator is unable to serve the remainder of the Senate year, the Senate Executive Committee, in consultation with the appropriate constituency, shall appoint a replacement for that Senator.

- 2.5 If an elected Senator is no longer in satisfactory standing at the University, he or she shall be replaced immediately in accordance with 2.4.a or 2.4.c above.
- 2.6 All elections shall be completed by the Transition Meeting of the Senate.

ARTICLE 3 MEETINGS

3.1 Regular Meetings:

The Senate shall schedule at least four (4) regular meetings each semester. The notice, agenda, and supporting documents shall be mailed, by campus or electronic-mail, from the Office of the University Senate to the membership no later than one calendar week prior to each regular meeting unless otherwise approved by the Executive Committee.

3.2 Special Meetings:

3.2.a Special meetings of the Senate may be called in any of the following ways, with the matter(s) to be considered to be specified in the call:

- (1) By the presiding officer of the Senate;
- (2) By a majority vote of the Executive Committee of the Senate;
- (3) By written petition of a majority of the elected members of the Senate. The petition shall be delivered to the Chair or the Executive Secretary and Director of the Senate. The Chair shall give notice of arrangements for the meeting within seventy-two (72) hours of receipt of a valid petition;
or
- (4) By resolution of the Senate.

3.2.b The notice of a special meeting shall include the agenda and shall be sent to the members of the Senate as far in advance of the meeting as possible. The agenda of a special meeting may specify a scheduled time of adjournment.

3.2.c The scheduling of a special meeting shall reflect the urgency of the matter(s) specified in the call, the requirement of reasonable notice, and the availability of the membership.

3.3 Openness of Meetings and Floor Privileges:

1. The Library Council members should be chosen from people who can bring a campus-wide perspective to their deliberations on Library matters and who have shown interest and willingness to foster a good working relationship between the Libraries and their users.
 2. Library Council members should be selected to represent as broad a range of campus disciplines and interests as possible. Faculty members should include representatives from both the professional and arts and sciences colleges, and within these constituencies, representatives of the arts and humanities, social sciences, and physical and biological sciences.
- C. The Appointment Process:** In the spring of each year, the Chair of the University Library Council shall notify the representative of the Office of the Senior Vice President and Provost and the Chair-Elect of the Senate of the appointments required for the following academic year. The representative of the Office of the Senior Vice President and Provost and the Chair-Elect of the Senate shall draw up a slate of nominees who will agree to serve, and the slate will be submitted to the Senior Vice President and Provost and the Committee on Committees for approval. The list of nominees for Library Council membership shall be submitted to the University Senate for approval. Ordinarily, the slate will be presented at the same Senate meeting at which other committee slates are approved. Dates of appointment and beginning of terms shall correspond with those of Senate committees. Replacement of Library Council members will take place through the same consultative process as the initial appointment, with submission of names to the Senate occurring as needed.
3. **Operation of the Library Council:** Effective and efficient Library Council operation will require adequate support and full cooperation among the Senate, the Senior Vice President and Provost, the Dean, and their offices.

- A. The Office of the University Senate or its designee will provide normal committee support to the Council, including maintaining mailing lists, reproducing Library Council documents, keeping a copy of Library Council minutes, maintaining files for the Library Council, and arranging meeting rooms.
 - B. The Office of the Senior Vice President and Provost, through its ex officio Library Council member, will provide liaison to other administrative units, such as the Office of Institutional Research, Planning and Assessment, for their reports, data, or assistance. The Office of the University Senate will also provide website space for the Library Council.
 - C. The Dean of the Libraries will provide the Library Council with internal data, reports, studies, etc. as needed to support the Library Council's work. The Dean will also arrange for unit staff to present testimony concerning such reports as the Library Council finds useful in carrying out its responsibilities. The Dean's assistance to the committee shall also include providing the Library Council members with the opportunity to attend an appropriate orientation session dealing with the Libraries.
 - D. Control of the Library Council's agenda will be the responsibility of the Library Council Chair and the voting members of the Library Council.
 - E. While being responsive to the needs of the Senior Vice President and Provost and the Senate in a timely manner is necessary, the sponsoring parties and the Dean of the Libraries must not attempt to micro-manage the ongoing operation of the Library Council. In turn the Library Council must not attempt to micro manage the Libraries.
 - F. The Library Council shall meet as necessary, but in no case less than once per semester. Meetings may be called by the Chair.  - B. The Chair may present reports and recommendations to the Senate but will not have a vote in Senate proceedings, unless he or she is a member of the Senate.
 - C. Since the committees of the Senior Vice President and Provost range widely in form and function, and do not operate under a formal plan of organization and bylaws, there is no need to specify the Library Council's standing in the same fashion. For other purposes, such as APAC review of the Unit, the Library Council might be consulted like a College Advisory Council (that colleges will have under the shared governance plan) could be.
 - D. The Dean of Libraries will ordinarily meet with the Library Council and have a voice in its deliberations. Since one of the three main functions of the Library Council is to advise the Dean, the Dean shall not formally be a member of the Library Council. On formal reports and recommendations of the Library Council to the University Senate or to the Senior Vice President and Provost, the Dean of the Libraries may send a separate memorandum to the Senate or the Senior Vice President and Provost, as appropriate, supporting or opposing the report or the recommendations, and providing rationale for the Dean's position.
5. **Review of the Library Council:** The Library Council and its operations will be reviewed in conjunction with the periodic review of the Senate and the *Plan*.

APPENDIX 4 CHARTER OF THE UNIVERSITY ATHLETIC COUNCIL

The University of Maryland at College Park is dedicated to higher learning, research, and public service. - The Director of the Office of Alumni Programs for the University of Maryland at College Park.
- A current head coach selected by the coaches as their representative. This appointment will be a one-year appointment with a three year limit.

In making all non-elected appointments to the Athletic Council, the President should solicit recommendations from the following advisory groups or persons: Executive Committee of the Athletic Council, President of the Student Government Association, President of the Graduate Student Government, Dean of the Graduate School, and Director of Intercollegiate Athletics. The term of office of all members of the Council shall begin with the first meeting of the new academic year.

Vacancies occurring on the Council due to resignation or other cause will be filled as they occur. If the vacancy is one of the members of the Council elected by the Senate, the Senate will be asked to elect a replacement to fill the vacancy. For all other vacancies, the President will solicit nominations from the appropriate groups and appoint a replacement to fill the remainder of the unexpired term. Persons appointed to fill a partial term on the Council will be eligible for election or appointment to a full term as appropriate for their membership category.

MEETINGS OF THE ATHLETIC COUNCIL

The Chair of the Council serves as the spokesperson for the Council. Meetings of the Council are open only to Council members and invited guests. Individuals who are not members of the Council, but who wish to attend a specific meeting should seek the prior approval of the Chair. Information provided to Council members concerning specific personnel or compliance matters will not be divulged by individual members without permission of the Chair.

APPENDIX 5 PROCEDURES FOR ELECTIONS OF UMCP REPRESENTATIVES TO THE COUNCIL OF UNIVERSITY SYSTEM FACULTY (CUSF)

The Chair of CUSF is not a member of CUSF. Thus, if the Chair is from College Park, a replacement must be named. At the end of his/her term as Chair, if his/her term on CUSF is not finished, he/she resumes his/her position as a CUSF member.

The normal term for CUSF representatives is three (3) years, with two alternates serving three (3) year terms; if both alternates are elected at the same time, priority to be a replacement shall be in order of votes received. If a regular representative is unable to serve out his/her term, an alternate replaces him/her for the remainder of the term, and a new alternate is named. The replacement representative shall be chosen in order of number of votes received. The Office of the University Senate will identify a replacement alternate subject to confirmation by the Senate Executive Committee.

The University Senate will elect representatives to CUSF each spring. The Senate Nominations Committee will solicit candidates and will present a slate to the Chair of the Senate with at least one (1) candidate for each vacant position to be filled. At the Transitional Meeting of the Senate, faculty Senators will vote to elect representatives to CUSF. Each faculty Senator shall have as many votes as there are open positions. If there are more candidates than positions, the person(s) receiving the most votes, in order, are declared representatives. The person receiving the next most votes is declared alternate. The remaining person, in order of vote tally, will be asked to move into the alternate position if the previous paragraph comes in to play. A record of the outcome of the election will be retained by the Executive Secretary and Director of the University Senate. If there are not sufficient candidates, or the pool of candidates is exhausted, representatives are chosen by the Executive Committee.

APPENDIX 6 PROCEDURES FOR ELECTIONS OF UMCP REPRESENTATIVES TO THE COUNCIL OF UNIVERSITY SYSTEM STAFF (CUSS)

The mission of the Council of University System Staff (CUSS) is to provide a voice for Staff employee concerns in reference to basic decisions that affect the welfare of the University System of Maryland (USM) and its employees.

CUSS speaks for all non-exempt and exempt staff employees on Regular and Contingent II Status, who are not represented by a union under collective bargaining.

CUSS is comprised of Staff employees representing each USM institution and the USM Office (USMO). Institution membership is proportionate to the number of Staff employees at the individual institutions, with a minimum of two (2) primary members and two (2) alternate members per institution. Representation on CUSS from each constituent institution is apportioned according to the following formula: 1 to 999 eligible employees, 2 representatives; over 1000 eligible employees, 3 representatives. Staff at each constituent institution shall also select an alternate who shall substitute for a regular member of CUSS when needed. Alternates should be selected at the same time and in the same manner as regular members. A delegation may include more than one (1) alternate who is eligible to cast a vote for an absent member provided the member has given prior notification to the Chair of CUSS. The University of Maryland, College Park is entitled to three (3) representatives, and up to three (3) alternates.

As defined in 6.10.f of the Senate *Bylaws*, the Senate Staff Affairs Committee is responsible for administering the CUSS nomination and election process. Definitions of eligible staff shall be determined by the Board of Regents and CUSS. The CUSS elections will be administered in the spring semester every other year, as the terms of the current CUSS representatives are expiring. The Staff Affairs Committee will solicit candidates from the eligible staff population and will present ballots to the same population with at least one (1) candidate for each vacant position to be filled. Eligible staff employees will vote to elect representatives to CUSS. If there are more candidates than positions, the person(s) receiving the most votes, in order, are declared representatives. The person(s) receiving the next most votes are declared alternate(s). A record of the outcome of the election will be retained by the Executive Secretary and Director of the University Senate.

New members shall begin their terms August 1. The normal term for CUSS representatives and alternates is two (2) years. If a regular representative is unable to serve out his/her term, an alternate replaces him/her for the remainder of the term, and a new alternate is named. The replacement representative shall be chosen in order of number of votes received.

APPENDIX 7 PROCEDURES FOR REVIEW OF COLLEGE AND SCHOOL PLANS OF ORGANIZATION

1. In accordance with Article 11 of the Plan, each College, School, Department and other Academic Program, and the Library, shall have a Plan of Organization.
 - a. The Plan of Organization of each College, School, and the Library shall be reviewed by the University Senate according to the procedures detailed in section 2 of this appendix. All revisions to such Plans of Organization must be approved by the University Senate and the President prior to taking effect.
 - b. The Plan of Organization of a Department or other Academic Program shall be reviewed and revised by the Faculty Advisory Committee of the College to which it belongs. In the review and revision of such Plans, the University Senate may act in an advisory capacity if asked to do so by the College.
2. Each College, School, and the Library shall review and revise its Plan of Organization in accordance with Article 11.3 of the Plan and shall submit it to the University Senate for review.
 - a. Revised Plans of Organization shall be reviewed by the Senate Elections, Representation, and Governance (ERG) Committee for compliance with the University's Plan of Organization, University policy, and best practices of shared governance.
 - b. The Senate Faculty Affairs Committee shall review the Appointment, Promotion, and Tenure or Permanent Status section of each Plan and any related documentation for compliance with the University's APT Policy. The Senate Faculty Affairs Committee shall also review the Appointment, Evaluation, and Promotion Policy and any related documentation for compliance with University policies on professional track faculty and the University's Guidelines for Appointment, Evaluation, and Promotion of Professional Track Faculty.
 - c. The ERG and Faculty Affairs Committees shall communicate any concerns or requested revisions to the respective College, School, or Library.
 - d. Once all necessary revisions have been made, the ERG and Faculty Affairs Committees shall certify that they find the Plan to be in compliance and the revised Plan of Organization shall be submitted to the College Assembly or equivalent for approval.
 - e. Upon approval of the College Assembly or equivalent, the ERG Committee shall submit the revised Plan and its accompanying report to the Senate Executive Committee for review and placement on the Senate Agenda.
 - f. The revised Plan of Organization shall require final approval by the University Senate and the President.

3. During the initial implementation of a recently approved Plan of Organization, a College, School, or the Library may submit additional minimal or technical amendments to the Senate within one year of final approval by the University President. These revisions will undergo an expedited review process by the Senate ERG Committee, and by the Faculty Affairs Committee if appropriate. The committee(s) shall review only those amendments submitted by the College, School, or the Library, and shall not conduct a full review of the Plan. Upon approval by the ERG Committee (and the Faculty Affairs Committee, if necessary), the amendments shall be submitted to the College Assembly, the Senate Executive Committee, the Senate, and the President according to the procedures outlined above in section 2 d-f.
4. Until a revised Plan of Organization is approved by the University Senate and President, the version of the Plan of Organization of each College, School, and the Library that was most recently approved by the University Senate and President remains in effect, and provides the rules under which the College, School, or the Library must review and approve future revisions to its Plan. The University Plan of Organization supersedes any provisions in the Plan of any College, School, the Library, Department, or Academic Program that are in conflict with the purpose, applicability, or intent of the University Plan.

The chair of the Steering Committee should also serve on one of the Working Groups. The Steering Committee should be responsible for reporting to the Vice President and CIO and the Senate, and should report to the Senate at least twice a year on its work.</p> <p>The committee recommends that the Working Groups represent</p>

the major groups of stakeholders in IT life at the University and should have between eight and twelve members. The groups should be made up of a majority of faculty and staff not serving as administrators, and students. The committee outlined specific membership recommendations for each Working Group, and determined that members and chairs should be appointed in accordance with section 7.5 of the Bylaws. Each group should be charged with researching and making recommendations on IT issues. The Working Groups should not be restricted to working on charges and should address additional issues as they see fit. It is expected that the Working Groups would consult with and/or meet with the relevant staff members from the Division as appropriate.

In addition to the specifications of the IT Council, the ERG Committee also determined that the Bylaws of the University Senate should detail the specifications of the Council. Accordingly, the committee developed the following text to be inserted into Article 8 of the Bylaws:

“8.3 IT Council:

8.3.a Charge: The IT Council shall advise and report on policy issues concerning the Division of IT to the University Senate and the Vice President for Information Technology and CIO. In addition to such responsibilities as are enumerated in Article 7 of these *Bylaws*, the IT Council shall:

- 1) Respond to requests from the Division of Information Technology, extra-divisional advisory bodies (such as the Council of Deans or the Student Technology Fee Committee), the University Senate, or other campus stakeholders for guidance on IT policy and implementation.**
- 2) Advise on the Division’s budget, material resources, personnel, staffing and human resources, administrative policies and practices, and have all other responsibilities listed in 7.4 of the Bylaws of the University Senate.**
- 3) Initiate strategic inquiries on IT-related matters impacting or likely to impact the campus community.**

8.3.b Membership: The IT Council Steering Committee shall consist of a chair (1), the chairs of the four (4) IT Council Working Groups, and the following members already serving on an IT Council Working Group: one (1) exempt staff member, one

	<p>(1) undergraduate student, one (1) graduate student, one (1) non-tenured research faculty member, one (1) tenured faculty member. The Vice President and CIO, or a designee, shall serve as a non-voting ex-officio member. Additional non-voting ex-officio members may be appointed as needed, by agreement between the CIO and the SEC.</p> <p>8.3.c The Chair of the IT Council Steering Committee shall be appointed by the Vice President for Information Technology and CIO and the Senate, as described in 7.5 of these <i>Bylaws</i>. The Chair will serve a three year term. The Chair shall normally (subject to exception by agreement of the Vice President and the Senate) also serve as a member of one of the Working Groups.</p> <p>8.3.d Working Groups: The IT Council shall create four standing Working Groups. These groups should carry out research and make recommendations on IT issues, and shall each work with the appropriate Deputy CIO in the Division. The chair of each Working Group shall be appointed by the Committee on Committees, in consultation with the CIO, and shall serve a two year term. The four Working Groups shall be:</p> <ol style="list-style-type: none"> 1) Learning @ Technology 2) Enabling Research 3) Infrastructure 4) Enterprise Systems <p>8.3.e Reporting Responsibilities: The IT Council shall report to the Vice President and CIO of the Division of Information Technology and to the University Senate.”</p>
Alternatives:	The Senate could reject the recommendation and the current structure of the IT Council would remain as the main source of IT governance at UMD. However, without such a change to the Council, DivIT may face difficulties in gaining the necessary engagement in decision-making related to IT.
Risks:	There are no associated risks.
Financial Implications:	There are no financial implications.
Further Approvals Required:	Senate approval, Presidential approval.

Revisions to the Structure & Membership of the University IT Council

May 2013

BACKGROUND

In February 2013, the University Senate approved the Strategic Plan for the Division of Information Technology (DivIT) at the University of Maryland (UMD). Following approval by the Senate and the President of the University, DivIT began the process of transforming its Plan into action, and asked the Senate Executive Committee (SEC) to work with it to address an item in the Strategic Plan related to shared governance. The Strategic Plan recommended creating a structure for IT governance which more thoroughly engages the university community in determining the long-term implementation of IT at UMD. On February 22, 2013, the SEC charged the ERG Committee with reviewing the structure and membership of the existing IT Council and making recommendations on its structure and function in relation to IT governance.

CURRENT PRACTICE

The IT Council is a jointly-sponsored university-level shared governance body whose purpose is to advise the Vice President and CIO for Information Technology on information technology issues at UMD. The Council is composed of three Deans selected by the Provost, all Vice Presidents, three faculty members appointed by the Senate, a graduate student selected by the Graduate Student Government (GSG), an undergraduate student selected by the Student Government Association (SGA), and a University System of Maryland (USM) representative. The Council's specifications state that it should be chaired by the Vice President and CIO for Information Technology, although in recent practice it has been chaired by the Provost.

In current practice, the IT Council meets only four or five times a year and does not fulfill the objectives laid out in the Strategic Plan. Meetings generally consist of presentations on hot topics in IT rather than decision-making deliberations. DivIT would like to create a more robust and active governance structure focusing on four major governance areas: 1) *infrastructure*; 2) *teaching and learning*; 3) *research*; and 4) *enterprise systems*.

COMMITTEE WORK

The ERG Committee began its review of the charge (Appendix 3) on March 3, 2013. The committee discussed the charge and the current structure of the IT Council, and met with the Planning and Projects Officer from the Division of Information Technology. The Planning and Projects Officer, who was selected by the Vice President and CIO to work as a liaison with the ERG Committee during its processes, explained that the current structure of the IT Council does not serve DivIT's needs, primarily because it is a large and cumbersome group that does not engage in decision-making deliberations. He noted that it may be useful to consider dismantling the council as it currently stands to create a more effective decision-making group. In particular, he shared that the Vice Presidents and Deans likely would not need to have such a defined presence on the Council, since they already have well-defined communication channels with the Vice President and CIO. He also indicated that the Vice President, in

conversation with his peers, had received feedback that indicated they found the existing process to be a less than optimal use of their time.

With this information in mind, the ERG Committee considered different configurations for a restructured IT Council. The various structures attempted to align the needs of DivIT with the existing rules and procedures for University Councils in the Bylaws of the University Senate. The committee ultimately focused on a structure with a top-level committee and four Working Groups that would report to it.

The committee spent much of its review discussing whether the IT Council should include such a top-level body. One structure considered by the committee included a large and formal top-level body, which included deans and vice presidents in its membership. Feedback from DivIT indicated that such a structure was precisely what the desired change was intended to avoid. DivIT felt it would be more useful to simplify the Council to focus on the four governance areas. However, the ERG Committee felt strongly that a consortium of four groups without a coordinating body above them would run the risk of a) being relegated to a sub-Council status, or b) losing its connection to the Senate. The latter point was reinforced by consulting the regulations for University Councils laid out in the Senate Bylaws, and by obtaining from the Senate Parliamentarian an opinion confirming that it would be difficult (if not impossible) to enforce a relationship between the Senate and the new IT Council if it did not adhere to certain fundamental, definitional standards (see Article 7 of the Bylaws in Appendix 2).

Ultimately, the committee proposed a structure that includes a streamlined Steering Committee responsible for oversight of the Working Groups. The Steering Committee's membership would consist of the chairs and some members of various Working Groups, in order to facilitate cooperation between the four groups and to assist the Steering Committee in seeing the full picture of the work of the IT Council.

The committee also discussed the composition and responsibilities of the Working Groups at length. The Working Groups would include members from: 1) *traditional shared governance constituencies*; 2) *administrative stakeholders*; and 3) *unique custodians and consumers of IT*, (see Appendix 1 for a full list of stakeholders). The committee discussed specific membership that might be critical for each Working Group. In total, each group would have eight to ten voting members. In terms of ex-officio membership, the committee agreed to give DivIT the flexibility to identify individuals to represent appropriate stakeholders on an annual basis. The committee discussed the reporting requirements for the Working Groups, and determined that they would report to DivIT or to the Steering Committee at its discretion.

In determining the appropriate requirements for chairs for the Steering Committee and the Working Groups, the committee reviewed Article 7 of the Bylaws of the University Senate. The Bylaws state that the chair of a University Council should be chosen by the Vice President with the input of the Senate, and should serve a three year term. The committee noted no concerns with that arrangement, but did wish that the chair should serve as a member of one of the Working Groups as well. The committee determined that the Working Group chairs should serve two year terms, in the hope of striking a balance between a desire for institutional memory and recognition of the time commitment involved in serving as chair.

As the committee developed a proposed structure for the revised IT Council, it also agreed that the Bylaws of the University Senate should contain the specifications of the IT Council, as they include the specifications of the University Library Council and University Research Council. Accordingly, the committee developed appropriate text to be inserted into Article 8 of the Bylaws.

At its meeting on April 17, 2013, the committee voted to recommend that the IT Council be restructured in accordance with the specifications described below. It also voted to recommend inserting the specifications of the IT Council into the Bylaws of the University Senate.

RECOMMENDATIONS

The Elections, Representation, & Governance Committee recommends that the IT Council be restructured to consist of a Steering Committee and four Working Groups, created in accordance with the specifications described below.

The Elections, Representation, & Governance Committee recommends that the Bylaws of the University Senate be amended to include a description of the membership and general structure of the IT Council.

The Elections, Representation, & Governance Committee recommends that the first order of business for the new IT Council should be to create its own Bylaws, which should be submitted to the University Senate for approval, in accordance with Article 7 of the Bylaws of the University Senate.

RECOMMENDED IT COUNCIL STRUCTURE

Recommended IT Council: The IT Council should be a consortium composed of four Working Groups as explained below. The Council should also include a Steering Committee, which should have responsibility for oversight of the four Working Groups, outlined below.

Purpose and Responsibilities:

The business of the IT Council should be:

- 1) To respond to requests from DivIT, an existing extra-divisional advisory body (such as the Council of Deans or the Student Tech Fee Committee), the University Senate, or any other campus stakeholder for guidance on IT policy and implementation.
- 2) To advise on DivIT's budget, material resources, personnel, staffing and human resources, administrative policies and practices, and to fulfill all other responsibilities listed in Article 7 Section 4 of the Bylaws of the University Senate.
- 3) To initiate strategic inquiries on IT-related matters impacting or likely to impact the campus community.

Steering Committee

Membership: IT Council Steering Committee's membership should include:

1. A Chair
2. The four Working Group chairs
3. Vice President for IT and CIO, or designee, as non-voting ex officio
4. Additional non-voting ex-officio members may be appointed as needed, by agreement between the CIO and the SEC
5. One exempt staff person already serving on a Working Group
6. One undergraduate student already serving on a Working Group
7. One graduate student already serving on a Working Group
8. One non-tenured research faculty member already serving on a Working Group
9. One tenured faculty member already serving on a Working Group

Members should be appointed in accordance with section 7.5 of the Bylaws of the University Senate. The Chair of the IT Council Steering Committee should also be appointed in accordance with section 7.5 and should serve as a member of one of the Working Groups as well. The Steering Committee should meet at least once a year to report out on the Working Group to the SEC and Vice President and CIO.

Reporting: The Steering Committee should report either to the Vice President and CIO, or to the University Senate when responding to charges from the Senate Executive Committee. Twice a year, the IT Council Steering Committee should report to the SEC and the Senate on the work of its four groups. The CIO should be responsible for keeping the Council of Deans and Cabinet fully and appropriately apprised of the work of the IT Council, and should coordinate any requests or charges from the Cabinet and Deans to the appropriate Working Group.

Working Groups

Working Groups should be charged with carrying out research on issues and proposing recommendations. Each group should be responsible for advising on DivIT's budget, material resources, personnel, staffing and human resources, administrative policies and practices, and should have all other responsibilities listed in 7.4.b of the Bylaws of the University Senate. The Working Groups should report their findings and recommendations either a) directly to the relevant DivIT unit or office; or b) to the Steering Committee. Each Working Group should be supported by and work with a Deputy CIO in the Division as designated by the CIO.

Working Groups should also be an incubator for issues and ideas, and should not operate only in response to charges. Working Groups should meet somewhere between eight and nine times per year, or approximately once a month.

Working Groups are designed to be nimble, and to bring together the concerns of key stakeholders from across the campus community, including consumers of IT resources, and those responsible for delivering those resources and planning for the future. It is expected that Working Groups would consult with and/or meet with relevant staff members from the Division as appropriate.

Membership: Working Groups should represent the three major groups of stakeholders in IT life at the University (Appendix 1). The groups generally should have between eight and twelve members, and a chair. A majority of members should be drawn from faculty and staff not serving as administrators, and students. Faculty, staff, and student members should be appointed in accordance with section 7.5 of the Bylaws of the University Senate. Appropriate *Administration Stakeholders* and *Unique Custodians & Consumers* should be selected by the CIO, in consultation with the Senate. Faculty and staff members should serve two year terms. Undergraduate and graduate student members may serve one year terms. Members appointed by the CIO should be reappointed annually as appropriate.

Chairs: Each Working Group should have a chair, chosen by the Committee on Committees of the Senate in consultation with the CIO. Chairs should be appointed to serve a two year term, and may be reappointed for one additional two year term.

Recommended Working Groups:

Learning @ Technology

Remit: Classroom Support, Learning Support, Student Experience, Instructor Experience, Scholarly Enablement

Special Membership Recommendations: Membership should include at least one graduate student and one undergraduate student. At least one faculty member should be in a Non Tenure-Track instructional faculty category and at least one student member should also be a member of the Campus Student Technology Fee Advisory Committee (CSTFAC). The Director of CTE should be a member.

Enabling Research

Remit: Research Support Tools, Collaboration Tools, Data Storage and Access, IT and IP Issues

Special Membership Recommendations: At least one faculty member should be from the Non Tenure-Track Research category. The committee should include designees from the VP of Research and the Dean of the Graduate School.

Infrastructure

Remit: Physical Hardware/Software/Networking, Lifecycle Refresh, Security

Special Membership Recommendations: Membership should include at least one graduate student, one undergraduate student, and one staff member. At least one student member should also be a member of CSTFAC.

Enterprise Systems

Remit: Physical Infrastructure, Enterprise Business Systems

Special Membership Recommendations: This Working Group may not need to follow the general rule of a majority of non-administrator members appointed by the Senate. Generally speaking, more leeway should be allowed to the CIO in determining the membership of the Group. However, this group should include at least one staff member in its membership.

RECOMMENDED AMENDMENT TO THE BYLAWS OF THE UNIVERSITY SENATE

8.3 IT Council:

8.3.a Charge: The IT Council shall advise and report on policy issues concerning the Division of IT to the University Senate and the Vice President for Information Technology and CIO. In addition to such responsibilities as are enumerated in Article 7 of these *Bylaws*, the IT Council shall:

- 1) Respond to requests from the Division of Information Technology, extra-divisional advisory bodies (such as the Council of Deans or the Student Technology Fee Committee), the University Senate, or other campus stakeholders for guidance on IT policy and implementation.**
- 2) Advise on the Division's budget, material resources, personnel, staffing and human resources, administrative policies and practices, and have all other responsibilities listed in 7.4 of the *Bylaws* of the University Senate.**
- 3) Initiate strategic inquiries on IT-related matters impacting or likely to impact the campus community.**

8.3.b Membership: The IT Council Steering Committee shall consist of a chair (1), the chairs of the four (4) IT Council Working Groups, and the following members already serving on an IT Council Working Group: one (1) exempt staff member, one (1) undergraduate student, one (1) graduate student, one (1) non-tenured research faculty member, one (1) tenured faculty member. The Vice President and CIO, or a designee, shall serve as a non-voting ex-officio member. Additional non-voting ex-officio members may be appointed as needed, by agreement between the CIO and the SEC.

8.3.c The Chair of the IT Council Steering Committee shall be appointed by the Vice President for Information Technology and CIO and the Senate, as described in 7.5

of these *Bylaws*. The Chair will serve a three year term. The Chair shall normally (subject to exception by agreement of the Vice President and the Senate) also serve as a member of one of the Working Groups.

8.3.d Working Groups: The IT Council shall create four standing Working Groups. These groups should carry out research and make recommendations on IT issues, and shall each work with the appropriate Deputy CIO in the Division. The chair of each Working Group shall be appointed by the Committee on Committees, in consultation with the CIO, and shall serve a two year term. The four Working Groups shall be:

- 1) Learning @ Technology
- 2) Enabling Research
- 3) Infrastructure
- 4) Enterprise Systems

8.3.e Reporting Responsibilities: The IT Council shall report to the Vice President and CIO of the Division of Information Technology and to the University Senate.

Senate Document #14-15-10

Addition of User Experience Working Group to the IT Council

April 2015

BACKGROUND

During the 2012-2013 academic year, the Division of Information Technology (DivIT) developed the “Promoting Innovation: The University of Maryland Information Technology Strategic Plan,” which was approved by the University Senate and President in February 2013. Subsequently, DivIT asked the Senate Executive Committee (SEC) for assistance in carrying out a recommendation in the Strategic Plan for a more robust structure for IT governance. In the spring of 2013, the SEC charged the ERG Committee with considering revising the structure and membership of the IT Council to align with the needs identified by DivIT. The ERG Committee made a series of recommendations (Appendix 2) to restructure the Council to streamline its membership and focus on key areas of IT governance. In September 2013, the University Senate approved revisions to the structure of the IT Council.

During the first year of implementation of the new structure of the IT Council, DivIT found the new structure did not incorporate an appropriate venue for consideration of how the campus community is served by information technology services and programs. In the fall of 2014, the Vice President for Information Technology and Chief Information Officer returned to the SEC to ask that the Senate consider revising the structure of the IT Council to include an additional Working Group focused on the experience of users of IT services. On October 24, 2014, the SEC charged the ERG Committee with reviewing the proposed addition to the IT Council (Appendix 3).

CURRENT PRACTICE

In its previous work related to the IT Council (Appendix 2), the ERG Committee made recommendations to restructure the Council to be composed of a Steering Committee and four Working Groups. The Steering Committee is responsible for coordination and oversight of the Working Groups, and its membership consists of a chair, the chairs of each Working Group, one exempt staff member, one undergraduate student, one graduate student, one non-tenured research faculty member, and one tenured faculty member. In order to facilitate cooperation between the four groups and to assist the Steering Committee in seeing the full picture of the work of the IT Council, each member of the Steering Committee also serves on a Working Group. The Vice President and CIO or his or her designee serves as a non-voting ex-officio member, and additional non-voting ex-officio members may be appointed as needed.

The IT Council Working Groups are charged with performing research on issues before the Council and proposing recommendations on issues within their individual purviews. Currently, the four Working Groups of the IT Council are: Learning @ Technology, Enabling Research, Infrastructure, and Enterprise Systems. Working Groups report to the Steering Committee, or, when appropriate, to the relevant unit or office within DivIT.

COMMITTEE WORK

The ERG Committee began reviewing its charge on October 27, 2014. It reviewed the committee's past work on the structure of the IT Council, and considered the importance of the user experience in determining allocation of IT resources and planning for future developments in services and programs.

In December 2014, the ERG Committee met with the Director of Finance, Human Resources, Planning and Projects and with the Executive Assistant to the Vice President and Chief of Staff from DivIT to discuss the rationale behind a new Working Group focused on the user experience.

The ERG Committee learned that in the past year, the IT Council Working Groups have become more influential in IT decision making, and as they move forward, the Working Groups will explicitly set the course for DivIT in terms of investments, priorities, and decision making. As it began setting up its Working Groups, DivIT recognized a need for an additional group to provide the perspective of IT users in its decision making processes.

DivIT envisions the new Working Group as focusing specifically on how faculty, staff, students, and other users interact with IT services at UMD. The group's first focus will be on the general student experience with IT; it will consider what students are receiving in terms of an IT experience when they come to UMD, and whether that aligns with what students expect and need. The group will consider whether systems and services are integrated and whether tools are modernized and easy to use. The group will also consider compliance with federal and state accessibility standards. As it gathers information for its work, the User Experience Working Group will need to determine how best to measure the experiences and needs of the campus community, so that all constituents can be involved in setting priorities based on community needs. The Working Group may utilize surveys or other tools to gather input, depending on the issues under consideration.

The ERG Committee considered the role of users in IT decision making, and noted that the user experience should be a consideration for all IT Council Working Groups. However, the committee agreed that there is value in having a separate Working Group dedicated to the user experience as well. The committee noted that other Working Groups may be composed of IT professionals or individuals with expertise related to specific tools or systems, whereas the User Experience Working Group would have broader representation of faculty, staff, and students who are not experts but who use IT services regularly in the course of their work or study at the University. Because of its broader membership, the User Experience Working Group will have a different core perspective than the other Working Groups, and its perspective will allow the IT Council to better assess needs and priorities across campus.

In addition to considering the new User Experience Working Group, the ERG Committee considered whether the information included in the Senate Bylaws related to the Working Groups is adequate. The committee noted that the current language in the Bylaws does not include a description of the purview of each Working Group. The committee suggested that the differences between Working Groups would be better understood by readers and by potential volunteers if more information were included in the Senate Bylaws. After deliberation, the ERG Committee agreed to develop additional text for the Bylaws to summarize the purview of each Working Group.

In January 2015, as the ERG Committee put forward its recommendations to the Senate Executive Committee for review, the Senate Office received a request from DivIT to consider an additional Working Group to focus on issues related to cybersecurity. Because of this request, the SEC returned this report to the ERG Committee to consider a cybersecurity Working Group.

The ERG Committee communicated with DivIT in February and March 2015 about the purpose for a new group and how best to integrate it into the IT Council. After much consideration, DivIT and the IT Council agreed that a new group on cybersecurity should be an advisory group rather than a Working Group. An advisory group would be able to advise each of the Working Groups and the full IT Council more effectively, and could include in its membership subject matter experts or professionals with experience on security issues. In the proposed structure, any decisions related to cybersecurity would be the responsibility of the IT Council Steering Committee, which ensures that security decisions are being made through a shared governance process.

On March 30, 2015, the ERG Committee discussed the decision made by the IT Council and agreed that creating an advisory group on security issues rather than a Working Group would be appropriate. Since advisory groups may be formed as needed without requiring amendment to the Senate Bylaws, no changes were made to the recommendations below to incorporate a cybersecurity advisory group.

RECOMMENDATIONS

The Elections, Representation, & Governance Committee recommends that the Bylaws of the University Senate be amended to include an additional Working Group focused on User Experience to the IT Council, and to provide brief descriptions of each Working Group of the Council.

Statement of Issue:	<p>Since the 2012-2013 academic year, the University Senate and the Division of Information Technology (DIT) have been working together to establish a new framework for a robust structure of IT governance. During summer 2015, the Vice President for Information Technology and Chief Information Officer (CIO) requested a revision to the structure of the IT Council. The IT Council recently formed an IT Security Advisory Committee to serve as an advisor to the IT Council and to each of the Working Groups, and the VP and CIO requested that the chair of the IT Security Advisory Committee be included on the IT Council as a voting member. In August 2015, the Senate Executive Committee (SEC) charged the ERG Committee with considering whether revisions to the IT Council's membership would be appropriate.</p>
Relevant Policy # & URL:	http://www.senate.umd.edu/governingdocs/2015Bylaws.pdf
Recommendation:	The ERG Committee recommends that the Senate Bylaws be revised to include the chair of the IT Security Advisory Committee as a member of the IT Council and to reflect current administrative structures within the Division of Information Technology, as indicated in the revised Bylaws immediately following this report.
Committee Work:	<p>The ERG Committee began reviewing its charge in September 2015. It reviewed its past work related to the IT Council, and discussed the role of the IT Security Advisory Committee (ITSAC) in DIT and the IT Council.</p> <p>The ERG Committee met with a representative from DIT during its review and learned that the ITSAC was created in 2015 as a result</p>

	<p>of the impact security considerations have on all IT decision making today. The ITSAC is advisory to the IT Council and each of the Working Groups, and is intended to work both reactively and proactively, reacting to problems that arise related to security threats and making decisions on how best to prepare for and prevent IT security issues. The ITSAC reports to the full IT Council.</p> <p>The ERG Committee considered the value of adding the chair of the ITSAC to the IT Council, and learned that DIT is not discussing any additional revisions to the IT Council’s structure. In meeting with a representative from DIT, the ERG Committee also noted that existing language in the Senate Bylaws related to DIT staff support for the IT Council would need to be updated as well, given a recent reorganization in the staff of the Division.</p> <p>After discussion, the ERG Committee voted unanimously in favor of recommending a revision to the Senate Bylaws to include the chair of the ITSAC as a member of the IT Council and to revise language to reflect the Division’s current administrative structure.</p>
Alternatives:	The Senate could reject the recommendation and the current structure of the IT Council would remain. However, without these revisions, the IT Council may not have the input it needs on issues related to security before the Council.
Risks:	There are no associated risks.
Financial Implications:	There are no financial implications.

BACKGROUND

Since the 2012-2013 academic year, the University Senate and the Division of Information Technology (DIT) have been working together to establish a new framework for a robust structure of IT governance. In spring 2013, the Senate ERG Committee was charged to revise the structure and membership of the University IT Council to align with the needs identified by DIT; a revised IT Council structure was approved by the Senate and the President in September 2013 (Senate Document #12-13-45). During the 2014-2015 academic year, the Division proposed incorporating a Working Group focused on how the campus community is served by information technology services and programs to the IT Council. The Senate and President approved revisions proposed by the Senate ERG Committee in April 2015 to create a User Experience Working Group (Senate Document #14-15-10).

During the summer of 2015, the Vice President for Information Technology and Chief Information Officer (CIO) contacted the Senate Office and requested an additional revision to the structure of the IT Council. The IT Council recently formed an IT Security Advisory Committee to serve as an advisor to the IT Council and to each of the Working Groups, and the VP and CIO requested that the chair of the IT Security Advisory Committee be included on the IT Council as a voting member. In August 2015, the Senate Executive Committee (SEC) charged the ERG Committee with considering whether revisions to the IT Council's membership would be appropriate (Appendix 2).

CURRENT PRACTICE

The University IT Council in its current structure is composed of the Council, five Working Groups focused on particular areas of IT that report to the Council and the Division, and the newly-established IT Security Advisory Committee. The IT Council is composed of a chair, the chairs of each of the five Working Groups, one exempt staff member, one undergraduate student, one graduate student, one professional track faculty member, and one tenured faculty member. In order to facilitate cooperation between the Council and the Working Groups, each member of the Council also serves on a Working Group. The Vice President and CIO, or his or her designee, serves as a non-voting ex-officio member, and additional non-voting ex-officio members may be appointed as needed.

COMMITTEE WORK

The ERG Committee began reviewing its charge in September 2015. It reviewed its past work related to the IT Council, and discussed the role of the IT Security Advisory Committee in DIT and the IT Council.

During its work on a related charge in spring 2015 (Appendix 1), the ERG Committee spoke with DIT about the creation of the IT Security Advisory Committee (ITSAC). As it discussed establishing a new Working Group for the IT Council, DIT and the ERG Committee also considered whether the IT Council should include a Working Group on security. DIT and the ERG Committee ultimately agreed that a security-related group should be advisory to the entire IT Council and each of the Working Groups, rather than being established as a Working Group. However, the ERG Committee and DIT did not discuss at that time whether the chair of the advisory group should be represented on the IT Council.

In October 2015, the ERG Committee met with the Assistant Vice President and Deputy CIO for Service Strategy, Operations, and Business Support from DIT to discuss the proposal. The Assistant Vice President and Deputy CIO explained that DIT created the ITSAC in 2015 in part because it recognizes the integral role security now plays and will continue to play in all decision making in the Division. The ITSAC is intended to work both reactively and proactively, in that it reacts to problems that arise related to security threats, and it also makes decisions on how best to prepare for and prevent IT security issues. The ITSAC has broad representation of constituencies, and one of its first tasks was conducting a survey

of campus IT security and developing a baseline of UMD's approach to IT security so that it can make recommendations on how to improve security. The Assistant Vice President and Deputy CIO noted that recommendations from the ITSAC will be reviewed by the full IT Council.

The ERG Committee inquired whether any additional Working Groups or Advisory Groups need to be created and included in the structure of the IT Council at this time. The Assistant Vice President and Deputy CIO stated that there are currently no discussions in DIT to further expand the IT Council. The ERG Committee also discussed an additional revision noted in the proposal related to staff support for the IT Council within the Division. The Bylaws currently state that each Working Group will work with the appropriate Deputy CIO in the Division; DIT recently underwent a reorganization of staff and units, and as a result, currently only has one Deputy CIO. The Assistant Vice President and Deputy CIO confirmed that the language should be revised to state that the Working Groups will work with an appropriate Division staff member as identified by the CIO. The ERG Committee saw no concerns with this revision.

After additional discussion, the ERG Committee agreed that revising the membership of the IT Council to include the chair of the ITSAC as a voting member would be beneficial to the Council's work. At its meeting on November 6, 2015, the ERG Committee voted unanimously in favor of recommending revisions to the Bylaws to add a new seat for the Chair of the ITSAC to the University IT Council and to revise the language related to appropriate staffing from the Division.

RECOMMENDATIONS

The ERG Committee recommends that the Senate Bylaws be revised to include the chair of the IT Security Advisory Committee as a member of the IT Council and to reflect current administrative structures within the Division of Information Technology, as indicated in the revised Bylaws immediately following this report.

History of Provost's Representation on the IT Council

From its inception in late 2004 through 2013, the Provost was a member of the IT Council by virtue of his/her role as a vice president. From 2010-2013, the Provost also chaired the IT Council. When the Council was restructured in 2013 following adoption of a new strategic plan, all the VPs (including the Provost) and Deans were removed.

IT Council Timeline

In the fall of 2004, VP/CIO Jeff Huskamp launched an "IT Council," which was intended as a forum for deans and the VPs to discuss significant IT issues facing campus. In December 2004, Huskamp and Senate Chair Art Popper discussed establishing the IT Council as a formal University Council. Popper's successor, Adele Berlin, continued to recommend this approach to Huskamp. In September 2005, a director in DIT submitted a draft "Proposal to Establish a Senate Information Technology Council" to the Senate Director. Later that month, however, the IT Council decided to postpone consideration of the proposal until the following year but no further action was taken on that particular proposal.

In the summer of 2009, Huskamp indicated that it would be preferable that the IT Council be chaired by someone other than the VP/CIO. Given councils are advisory to the administrative unit head, the Senate Chair agreed. In July 2010, interim VP/CIO JaJa and his administrative team also supported that change, and discussed it with the Provost. Ultimately, this led to the Provost chairing the Council until its 2013 reorganization and incorporation into the Senate structure.

Following the creation of the IT Strategic Plan in 2013, the ERG Committee worked with DIT to restructure the IT Council. The Planning and Projects Officer, appointed by the VP/CIO, indicated DIT's desire to streamline what was perceived as a large and cumbersome committee. He suggested there was no compelling reason to incorporate VPs and Deans, as they already have well-defined communication channels with the VP/CIO. There was no specific discussion about the Provost's role on the Council in either the ERG Committee or the SEC. The final structure that is still in place today does not include seats for the VPs and Deans.

Recent Senate Action Related to the IT Council

IT Council Structure (Senate Document #12-13-45)

In February 2013, the University Senate approved the Information Technology Strategic Plan for the Division of Information Technology (DIT). Responding to a request from the Director of IT and CIO (Brian Voss), the Senate Executive Committee charged the ERG Committee with reviewing the charge and structure of the IT Council.

The ERG Committee met with DIT's Planning and Projects Officer, who indicated DIT's desire to streamline what it thought was a large and cumbersome body. In consultation with DIT, the committee carefully considered various structures. It ultimately recommended that the IT Council retain a top-level Steering Committee to provide oversight of its Working Groups. The Steering Committee was streamlined by removing the University vice presidents and representation for the deans.

The IT Council specifications were incorporated into the University Bylaws, and a new structure with four Working Groups was established. Those groups included:

1. **Learning @ Technology**
2. **Enabling Research**
3. **Infrastructure**
4. **Enterprise Systems.**

Addition of User Experience Working Group to the IT Council (Senate Document #14-15-10)

After its first year operating under the new structure approved in 2013, DIT asked the Senate to consider creating an additional Working Group. The committee spoke with representatives of DIT, who described the need for a group that could provide the IT Council input on a range of issues related to how users interact with technology on campus. Existing Working Groups were composed of IT professional and other individuals with expertise related to particular tools and systems; the committee identified a need for a broadly representative

body encompassing faculty, staff, and students who regularly use DIT services, and recommended formation of a User Experience Working Group.

As part of its work, the committee also considered adding a body devoted to cybersecurity issues. After consultation with DIT, the committee decided that an advisory group would be more appropriate than an additional Working Group. Such a body could advise the other Working Groups, and include in its membership subject matter experts and experienced professionals. Given Councils may form such advisory groups on their own, no changes to the University Bylaws were needed.

The committee recommended creating an additional User Experience Working Group that “focuses on issues related to student and instructor experiences with IT services, accessibility to users, and considers whether the needs of the campus community are being met.”

Revisions to the IT Council Section of the Senate Bylaws (Senate Document #15-16-04)

The cybersecurity group discussed during the committee’s work on 14-15-10 was convened later in 2015 as the IT Security Advisory Committee (ITSAC). When originally discussing the advisory committee, ERG had not addressed whether the advisory committee’s chair should also be a member of the IT Council. In response to a request from the CIO, the SEC charged the ERG Committee with considering whether such a relationship was useful. The committee spoke with representatives from DIT, who indicated that the ITSAC had come to play an important role in nearly all decision making in DIT. The committee agreed that formalizing the relationship between ITSAC and the IT Council would be prudent. It also considered proposed revisions to the IT Council section of the Bylaws that adjusted which DIT officers are responsible for supporting each Working Group.

The committee recommended making the chair of the IT Security Advisory Committee a member of the IT Council, and proposed revisions to the IT Council section of the Bylaws that better reflected the administrative structure in DIT.

Modify the Membership of the Information Technology Council to Include a Representative of the University Libraries (Senate Document #15-16-18)

In early 2016, the ERG Committee recommended that the membership of the University Library Council be amended to include a representative of DIT. The ERG Committee was then charged with considering adding a representative from the Libraries to the IT Council. The committee learned that both DIT and the Libraries are strategic partners who frequently work together to enable IT services on campus. DIT fully supported the proposal.

The committee recommended that a non-voting ex-officio representative from the University Libraries be added to the IT Council.

- B. Control of the IT Council's agenda will be the responsibility of the IT Council chair and the voting members of the IT Council.
- C. While being responsive to the needs of the Vice President for Information Technology and CIO and the Senate in a timely manner is necessary, the Working Groups and the sponsoring parties -as well as the Deans, the Campus Student Technology Fee Advisory Committee, and the campus community - must not attempt to micro-manage the ongoing operation of the IT Council. In turn, the IT Council must not attempt to micro-manage the Division of Information Technology.
- D. The IT Council should typically meet once every month and shall meet at least once per semester. Meetings will be scheduled by Division of Information Technology staff, in consultation with the IT Council chair and the Vice President for Information Technology and CIO.

5. Working Groups of the IT Council: The Working Groups will serve in an advisory capacity to the IT Council. These groups should carry out research and make recommendations on IT issues, and shall each work with the appropriate Division of Information Technology staff member, as appointed by the Vice President for Information Technology and CIO.

A. The four Working Groups shall be:

- 1) **IT Infrastructure Working Group**, which focuses on building and maintaining a sound, advanced, secure, and productive physical information technology infrastructure (including but not limited to facilities, hardware, networks, and software) capable of supporting broad and effective use by students, faculty, and staff throughout the institution, including remote University members such as agricultural extension offices.

- 2) **Learning Technologies Working Group**, which provides the vision, priorities, and pace for enterprise learning technology solutions and services to be undertaken on campus. Its work focuses on endorsing the adoption of new learning technology solutions, as well as making recommendations for upgrading or decommissioning existing services. Working group members are nominated by the Deans.
 - 3) **Research Technologies Working Group**, which provides the vision, priorities, and pace for enterprise research technology solutions and services to be undertaken on campus. Working group members are nominated by the Deans.
 - 4) **Administrative Systems Working Group**, which advises the Vice President for Information Technology and CIO in matters of enterprise-wide administrative system technology decisions and priorities.
- B. Composition of the Working Groups:** Each Working Group will have a chair appointed by the Vice President for Information Technology and CIO and the Senate Chair for a two-year term. The membership of each Working Group will be appointed by the Vice President for Information Technology and CIO unless otherwise specified above(5.A.2 and 3) but will be flexible so that additional members can be engaged in the decision-making and review process as appropriate. The Members includes combination of Faculty, Staff and Students.
- C.** Terms on Working Groups shall be two (2) years for faculty and staff. Appointments to two-year terms shall be staggered: that is, as far as practical, half of the terms from each faculty or staff constituency shall expire each year. Terms shall begin on July 1 of the appropriate year.
- D. Meetings of the Working Groups:** The Working Groups usually meet three to four times a semester.
- E. Working Group Responsibilities:**

- A. **Composition of the IT Security Advisory Committee:** The committee will have a chair appointed by the Vice President for Information Technology and CIO and the Senate Chair for a two-year term. The membership of the committee will be appointed by the Vice President for Information Technology and CIO but will be flexible so that additional members can be engaged in the decision-making and review process as appropriate.
 - B. **Meetings of the IT Security Advisory Committee:** The committee usually meets three to four times a semester.
 - C. **IT Security Advisory Committee Responsibilities:**
 - 1) Define the standards for device and information security and communicate best practices and policies across the University community.
 - 2) Review and revise of existing risk management, business continuity, and disaster recovery efforts.
 - 3) Review specific programmatic mechanisms and enhance IT security and the protection of information privacy.
 - 4) Lead the University to develop clear and forceful policies to address the management and protection (integrity) of sensitive and business-critical information (data), including the University's permanent electronic records and the IT security infrastructure resources upon which that information resides.
7. **Operational Relationship of the IT Council to its Sponsors:**
- A. For purposes of University Senate action, the IT Council will appear in essentially the same role as a standing committee of the University Senate.
 - B. The IT Council chair may present reports and recommendations to the Senate but will not have a vote in Senate proceedings, unless he or she is a member of the Senate.
 - C. The Vice President for Information Technology and CIO is an ex-officio member of the IT Council and has a voice in its deliberations.

8. **Review of the IT Council:** The IT Council and its operations will be reviewed in conjunction with the periodic review of the Senate and the Plan.

University Senate PROPOSAL FORM

Name:	Elizabeth Beise
Date:	April 14, 2017
Title of Proposal:	Addition of a Representative of the Provost to the IT Council Membership
Phone Number:	301-405-6836
Email Address:	beise@umd.edu
Campus Address:	1124 Main Administration
Unit/Department/College:	SVPAAP
Constituency (faculty, staff, undergraduate, graduate):	faculty
Description of issue/concern/policy in question:	<p>Many of the issues facing the IT Council have campus-wide implications, and particularly so within Academic Affairs. While the current membership of the Council brings expertise from across the campus, a representative from the Provost's office, who will have intersection with all of the academic colleges and constituents, will bring a campus-wide perspective. This addition to the membership could be very helpful to decision-making for both the IT council and the CIO, particularly when it comes to the difficult task of prioritizing the projects related to enhancing, replacing, or upgrading the many enterprise-level IT systems that support the academic and research missions of the university.</p>
Description of action/changes you would like to see implemented and why:	<p>Add a seat to the IT Council membership for a representative of the Provost to serve as a non-voting ex-officio member. Since the VP/CIO is non-voting, it would make sense that the Provost's representative also be non-voting.</p>
Suggestions for how your proposal could be put into practice:	<p>As with the Library Council, the Research Council, and the Senate committees, the Senate Office would request a representative from the Provost to serve a one-year appointment.</p>
Additional Information:	<p>VP/CIO Eric Denna supports this proposal.</p>

Subject: University IT Council Bylaws (Senate Document #16-17-31)

The Senate Executive Committee approved an amendment to the charge given to the ERG Committee on the University IT Council Bylaws (Senate Document #16-17-31) at its meeting on August 29, 2017. The SEC would like the committee to include the following two additional elements into its charge:

1. Consider whether it is appropriate to change the IT Security Advisory Committee into a full working group of the IT Council.
2. Consider whether it is appropriate to add a representative of the Information Technology Advisory Committee (ITAC) as a non-voting ex-officio member of the IT Council.

Please find attached two memos that explain the rationale for these changes and a revised version of the IT Council that incorporates these changes.

In addition, the SEC requests that the committee's recommendations on the Addition of a Representative of the Provost to the IT Council Membership (Senate Document #16-17-35) be incorporated into this charge to streamline the Senate's review of these interrelated issues.

If you have any questions about the revisions to this charge, please contact Reka Montfort in the Senate Office (reka@umd.edu or 301.405.5804)

Re: Security Advisory Committee - Information Technology Council

=====

Pursuant to our conversation on Friday, 8/11, I am writing to recommend renaming the Security Advisory Committee to Security Advisory Working Group. This group, during the past year, has performed functions that are consistent with other working groups designated by the Information Technology Council (ITC). In the interest of streamlining by-laws and creating consistency within the ITC, it is requested that this current advisory group be designated as a working group. Since the data breach in 2014, network and systems security has been at the forefront of initiatives within the University. Continuing to focus on this critical need will be further enhanced by inclusion on the ITC rather than just in an advisory capacity. Security must continue to remain a top priority of the ITC and the campus as a whole. Allowing this group to become a working group will further the goal of setting the vision, pace and priority of this integral function of the University. An amended bylaw document has been included with this submission detailing the change to the status of the Security Advisory Committee to that of a working group. Thank you for your consideration.

Re: Additional Seated Member to Information Technology Council

=====

Pursuant to our conversation on Friday, 8/11, I am writing to recommend the addition of a seated, non-voting member to the Information Technology Council. The Division of Information Technology (DIT) works closely with the Information Technology Advisory Committee (ITAC), a student group tasked with making recommendations to the Chief Information Officer of the University relative to student access to technology on campus. ITAC is instrumental in areas such as proposal review for dispersal of the Student Tech Fee, discussion of mandatory student technology fee rates, budget allocations, etc.. DIT has developed and maintained a strong relationship with this committee and feel that there would be great benefit to having a representative on the IT Council. This inclusion will provide an additional level of transparency to the IT Council, along with solidifying a relationship between DIT and the student population represented by ITAC. Thank you for your consideration of this request.
